

# Are you ready for your QuaQua meeting?

Follow this checklist to get started

## QuaQua essentials\*

- ✓ Only use Google Chrome as browser for QuaQua meetings
- ✓ Use a laptop or desktop pc with i5 Quad processor (or higher)
- ✓ Connect with a fast and stable internet connection
- ✓ Always use a headset (preferably with microphone)

\*you will not be able to enter the meeting without these essentials

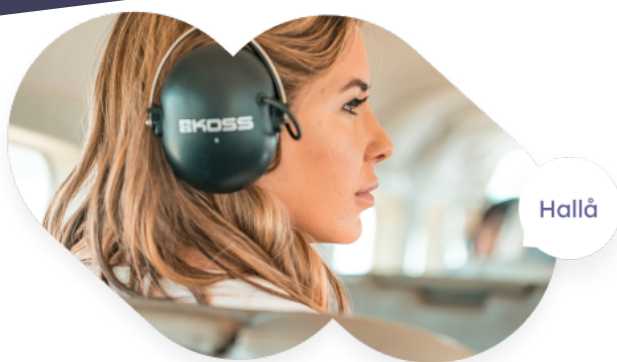

[Check here](#) if your computer has the latest version of Chrome

[Click here](#) to check your internet connection\*

\*min 5 Mbs upload speed & 15 Mbs download speed is required

## Before logging in

Disconnect any VPN connections and firewalls,  
Make sure all your devices are plugged in and connected,  
Close all other programs that are not needed during the meeting,  
Working from home? Make sure others don't use too much of your internet connection.

## Audio & channel set-up

### First time user?

Chrome will ask for permission to use your microphone.  
**Don't skip this step!**

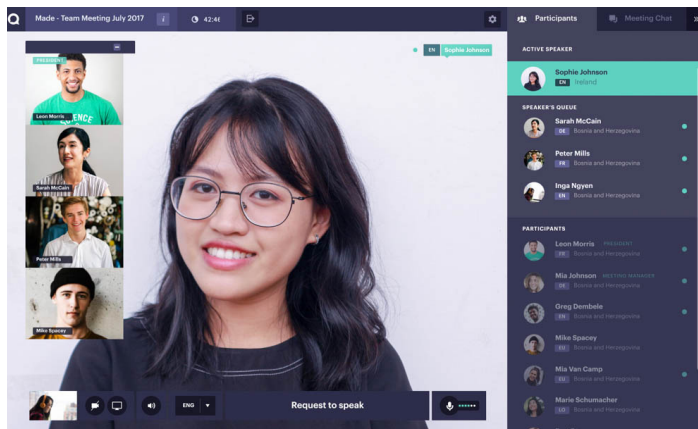

### Channels & relay

You will have to select your **outgoing A/B channels** when logging in. Next, you can choose which languages you want to hear in **relay**. These are your incoming languages.

Need to change your relays? Edit this in the settings menu.

## Checked everything?

You're good to go!

See you on QuaQua!
